

Draft Environmental Impact Statement

APPENDIX Y

Public Information Workshop Materials and Comments

May 23, 2006

1000 NW 111th Avenue, Room 6111A Miami, Florida 33172

DENVER J. STUTLER, JR. SECRETARY

Mr. David C. Gibbs Federal Highway Administration Division Administrator 545 John Knox Road Suite 200 Tallahassee, Florida 32303

SUBJECT: Public Informational Workshop

State Road 997 / Krome Avenue / SW 177th Avenue South

From: SW 296th Street / Avocado Drive To: SW 136th Street / Howard Drive Financial Project Number 249614-4-22-01 Federal Aid Project Number: N/A Miami-Dade County, Florida

Dear Mr. Gibbs:

Notice is hereby given that the Florida Department of Transportation (FDOT), Planning and Environmental Management Office, District Six will hold a Public Informational Workshop for the SR 997/Krome Avenue/SW 177th Avenue South Project Development and Environment (PD&E) Study. FDOT would like to take this opportunity to personally invite you to attend and participate in the following upcoming meeting.

Public Informational Workshop for SR 997/ Krome Avenue/SW 177th Avenue South PD&E Study

Location: Miami-Dade County John D. Campbell Agricultural Center - Auditorium

Address: 18710 SW 288 Street, Homestead, FL 33030

Date: Wednesday, May 31st, 2006.

Time: 5:30 - 8:30 PM

Your participation in this PD&E Study is an important opportunity to comment on the future transportation decision-making process along this corridor. The limits of this project are on SR 997/Krome Avenue/SW 177th Avenue, from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade County.

At the Public Informational Workshop, we will briefly introduce the study and explain the objectives of this project. The meeting will commence at 5:30 p.m. The Public Informational Workshop will be conducted in an open house format and participants are welcome to attend anytime between the hours of 5:30 p.m. and 8:30 p.m. A brief presentation on project background and purpose will be given at 6:30 PM, and aerial maps will be on display.

Anyone who needs project information should contact either Vilma Croft, P.E., FDOT Project Manager, at (305) 470-5240, and/or by e-mail at vilma.croft@dot.state.fl.us or Julio Boucle, P.E., Consultant Project Manager, at (305) 514-2419, and/or by e-mail at Julio_Boucle@urscorp.com.

Assistance for people with disabilities including those requiring transcriptions in Braille may be arranged by contacting the Public Information Office seven (7) days prior the meeting in writing (mail or e-mail) or by telephone: Brian Rick, Florida Department of Transportation, Public Information Office, 1000 NW 111 Avenue, Room 6111-A, Miami, FL 33172; brian.rick@dot.state.fl.us; (305) 470-5349.

Sincerely,

May 23, 2006

DENVER J. STUTLER, JR. SECRETARY

U.S. Department of Health & Human Services Center for Disease Control and Prevention 1600 Clifton Road Atlanta, GA 30333

SUBJECT: Public Informational Workshop

State Road 997 / Krome Avenue / SW 177th Avenue South

From: SW 296th Street / Avocado Drive To: SW 136th Street / Howard Drive Financial Project Number 249614-4-22-01 Federal Aid Project Number: N/A

Miami-Dade County, Florida

To Whom It May Concern:

Notice is hereby given that the Florida Department of Transportation (FDOT), Planning and Environmental Management Office, District Six will hold a Public Informational Workshop for the SR 997/Krome Avenue/SW 177th Avenue South Project Development and Environment (PD&E) Study. FDOT would like to take this opportunity to personally invite you to attend and participate in the following upcoming meeting.

Public Informational Workshop for SR 997/ Krome Avenue/SW 177th Avenue South PD&E Study

Location: Miami-Dade County John D. Campbell Agricultural Center - Auditorium

Address: 18710 SW 288 Street, Homestead, FL 33030

Date: Wednesday, May 31st, 2006.

Time: 5:30 - 8:30 PM

Your participation in this PD&E Study is an important opportunity to comment on the future transportation decision-making process along this corridor. The limits of this project are on SR 997/Krome Avenue/SW 177th Avenue, from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade County.

At the Public Informational Workshop, we will briefly introduce the study and explain the objectives of this project. The meeting will commence at 5:30 p.m. The Public Informational Workshop will be conducted in an open house format and participants are welcome to attend anytime between the hours of 5:30 p.m. and 8:30 p.m. A brief presentation on project background and purpose will be given at 6:30 PM, and aerial maps will be on display.

Anyone who needs project information should contact either Vilma Croft, P.E., FDOT Project Manager, at (305) 470-5240, and/or by e-mail at vilma.croft@dot.state.fl.us or Julio Boucle, P.E., Consultant Project Manager, at (305) 514-2419, and/or by e-mail at Julio Boucle@urscorp.com.

Assistance for people with disabilities including those requiring transcriptions in Braille may be arranged by contacting the Public Information Office seven (7) days prior the meeting in writing (mail or e-mail) or by telephone: Brian Rick, Florida Department of Transportation, Public Information Office, 1000 NW 111 Avenue, Room 6111-A, Miami, FL 33172; brian.rick@dot.state.fl.us; (305) 470-5349.

Sincerely,

May 23, 2006

Public Informational Workshop

State Road 997 / Krome Avenue / SW 177th Avenue South

From: SW 296th Street / Avocado Drive To: SW 136th Street / Howard Drive Financial Project Number 249614-4-22-01 Federal Aid Project Number: N/A

Miami-Dade County, Florida

Dear Mr. Nelson:

Notice is hereby given that the Florida Department of Transportation (FDOT), Planning and Environmental Management Office, District Six will hold a Public Informational Workshop for the SR 997/Krome Avenue/SW 177th Avenue South Project Development and Environment (PD&E) Study. FDOT would like to take this opportunity to personally invite you to attend and participate in the following upcoming meeting.

Public Informational Workshop for SR 997/ Krome Avenue/SW 177th Avenue South PD&E Study

Location: Miami-Dade County John D. Campbell Agricultural Center - Auditorium

Address: 18710 SW 288 Street, Homestead, FL 33030

Date: Wednesday, May 31st, 2006.

Time: 5:30 - 8:30 PM

Your participation in this PD&E Study is an important opportunity to comment on the future transportation decision-making process along this corridor. The limits of this project are on SR 997/Krome Avenue/SW 177th Avenue, from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade County.

At the Public Informational Workshop, we will briefly introduce the study and explain the objectives of this project. The meeting will commence at 5:30 p.m. The Public Informational Workshop will be conducted in an open house format and participants are welcome to attend anytime between the hours of 5:30 p.m. and 8:30 p.m. A brief presentation on project background and purpose will be given at 6:30 PM, and aerial maps will be on display.

Anyone who needs project information should contact either Vilma Croft, P.E., FDOT Project Manager, at (305) 470-5240, and/or by e-mail at vilma.croft@dot.state.fl.us or Julio Boucle, P.E., Consultant Project Manager, at (305) 514-2419, and/or by e-mail at Julio Boucle@urscorp.com.

Assistance for people with disabilities including those requiring transcriptions in Braille may be arranged by contacting the Public Information Office seven (7) days prior the meeting in writing (mail or e-mail) or by telephone: Brian Rick, Florida Department of Transportation, Public Information Office, 1000 NW 111 Avenue, Room 6111-A, Miami, FL 33172; brian.rick@dot.state.fl.us; (305) 470-5349.

Sincerely,

May 23, 2006

1000 NW 111th Avenue, Room 6111A **Miami, Florida 33172**

To Whom It May Concern:

Notice is hereby given that the Florida Department of Transportation (FDOT), Planning and Environmental Management Office, District Six will hold a Public Informational Workshop for the SR 997/Krome Avenue/SW 177th Avenue South Project Development and Environment (PD&E) Study. FDOT would like to take this opportunity to personally invite you to attend and participate in the following upcoming meeting.

Public Informational Workshop for SR 997/ Krome Avenue/SW 177th Avenue South PD&E Study

Location: Miami-Dade County John D. Campbell Agricultural Center - Auditorium

Address: 18710 SW 288 Street, Homestead, FL 33030

Date: Wednesday, May 31st, 2006.

Time: 5:30 – 8:30 PM

Your participation in this PD&E Study is an important opportunity to comment on the future transportation decision-making process along this corridor. The limits of this project are on SR 997/Krome Avenue/SW 177th Avenue, from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade County.

At the Public Informational Workshop, we will briefly introduce the study and explain the objectives of this project. The meeting will commence at 5:30 p.m. The Public Informational Workshop will be conducted in an open house format and participants are welcome to attend anytime between the hours of 5:30 p.m. and 8:30 p.m. A brief presentation on project background and purpose will be given at 6:30 PM, and aerial maps will be on display.

Anyone who needs project information should contact either Vilma Croft, P.E., FDOT Project Manager, at (305) 470-5240, and/or by e-mail at vilma.croft@dot.state.fl.us or Julio Boucle, P.E., Consultant Project Manager, at (305) 514-2419, and/or by e-mail at Julio_Boucle@urscorp.com.

Assistance for people with disabilities including those requiring transcriptions in Braille may be arranged by contacting the Public Information Office seven (7) days prior the meeting in writing (mail or e-mail) or by telephone: Brian Rick, Florida Department of Transportation, Public Information Office, 1000 NW 111 Avenue, Room 6111-A, Miami, FL 33172; brian.rick@dot.state.fl.us; (305) 470-5349.

Sincerely,

May 23, 2006

1000 NW 111th Avenue, Room 6111A Miami, Florida 33172

Location: Miami-Dade County John D. Campbell Agricultural Center - Auditorium

Address: 18710 SW 288 Street, Homestead, FL 33030

Date: Wednesday, May 31st, 2006.

Time: 5:30 - 8:30 PM

Your participation in this PD&E Study is an important opportunity to comment on the future transportation decision-making process along this corridor. The limits of this project are on SR 997/Krome Avenue/SW 177th Avenue, from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade County.

At the Public Informational Workshop, we will briefly introduce the study and explain the objectives of this project. The meeting will commence at 5:30 p.m. The Public Informational Workshop will be conducted in an open house format and participants are welcome to attend anytime between the hours of 5:30 p.m. and 8:30 p.m. A brief presentation on project background and purpose will be given at 6:30 PM, and aerial maps will be on display.

Anyone who needs project information should contact either Vilma Croft, P.E., FDOT Project Manager, at (305) 470-5240, and/or by e-mail at vilma.croft@dot.state.fl.us or Julio Boucle, P.E., Consultant Project Manager, at (305) 514-2419, and/or by e-mail at Julio_Boucle@urscorp.com.

Assistance for people with disabilities including those requiring transcriptions in Braille may be arranged by contacting the Public Information Office seven (7) days prior the meeting in writing (mail or e-mail) or by telephone: Brian Rick, Florida Department of Transportation, Public Information Office, 1000 NW 111 Avenue, Room 6111-A, Miami, FL 33172; brian.rick@dot.state.fl.us; (305) 470-5349.

Sincerely,

May 23, 2006

Time: 5:30 - 8:30 PM

Your participation in this PD&E Study is an important opportunity to comment on the future transportation decision-making process along this corridor. The limits of this project are on SR 997/Krome Avenue/SW 177th Avenue, from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade County.

At the Public Informational Workshop, we will briefly introduce the study and explain the objectives of this project. The meeting will commence at 5:30 p.m. The Public Informational Workshop will be conducted in an open house format and participants are welcome to attend anytime between the hours of 5:30 p.m. and 8:30 p.m. A brief presentation on project background and purpose will be given at 6:30 PM, and aerial maps will be on display.

Anyone who needs project information should contact either Vilma Croft, P.E., FDOT Project Manager, at (305) 470-5240, and/or by e-mail at vilma.croft@dot.state.fl.us or Julio Boucle, P.E., Consultant Project Manager, at (305) 514-2419, and/or by e-mail at Julio_Boucle@urscorp.com.

Assistance for people with disabilities including those requiring transcriptions in Braille may be arranged by contacting the Public Information Office seven (7) days prior the meeting in writing (mail or e-mail) or by telephone: Brian Rick, Florida Department of Transportation, Public Information Office, 1000 NW 111 Avenue, Room 6111-A, Miami, FL 33172; brian.rick@dot.state.fl.us; (305) 470-5349.

Sincerely,

May 23, 2006

The limits of this project are on SR 997/Krome Avenue/SW 177th Avenue, from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade County.

At the Public Informational Workshop, we will briefly introduce the study and explain the objectives of this project. The meeting will commence at 5:30 p.m. The Public Informational Workshop will be conducted in an open house format and participants are welcome to attend anytime between the hours of 5:30 p.m. and 8:30 p.m. A brief presentation on project background and purpose will be given at 6:30 PM, and aerial maps will be on display.

Anyone who needs project information should contact either Vilma Croft, P.E., FDOT Project Manager, at (305) 470-5240, and/or by e-mail at vilma.croft@dot.state.fl.us or Julio Boucle, P.E., Consultant Project Manager, at (305) 514-2419, and/or by e-mail at Julio Boucle@urscorp.com.

Assistance for people with disabilities including those requiring transcriptions in Braille may be arranged by contacting the Public Information Office seven (7) days prior the meeting in writing (mail or e-mail) or by telephone: Brian Rick, Florida Department of Transportation, Public Information Office, 1000 NW 111 Avenue, Room 6111-A, Miami, FL 33172; brian.rick@dot.state.fl.us; (305) 470-5349.

Sincerely,

1000 NW 111th Avenue, Room 6111A **Miami, Florida 33172**

Dear CAC Member:

Notice is hereby given that the Florida Department of Transportation (FDOT), Planning and Environmental Management Office, District Six will hold a Public Informational Workshop for the SR 997/Krome Avenue/SW 177th Avenue South Project Development and Environment (PD&E) Study. FDOT would like to take this opportunity to personally invite you to attend and participate in the following upcoming workshop.

Public Informational Workshop for SR 997/Krome Avenue/SW 177 Avenue South PD&E Study

Location: Miami-Dade County John D. Campbell Agricultural Center - Auditorium

Address: 18710 SW 288 Street, Homestead, FL 33030

Date: Wednesday, May 31st, 2006

Time: 5:30 PM - 8:30 PM

Your continued participation in this PD&E Study is an important opportunity to collaborate in the future transportation decision-making process along this corridor. The limits of this project are on SR 997/Krome Avenue/SW 177th Avenue South, from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade County.

At the Public Informational Workshop, we will briefly introduce the study and explain the objectives of this project. The Public Informational Workshop will be conducted in an open house format and participants are welcome to attend anytime between the hours of 5:30 p.m. and 8:30 p.m. A brief presentation on project background and purpose will be given at 6:30 PM, and aerial maps will be on display.

Anyone needing project information should contact either Vilma Croft, P.E., FDOT Project Manager, by telephone at (305) 470-5240, and/or by e-mail at vilma.croft@dot.state.fl.us or Julio Boucle, P.E., Consultant Project Manager, by telephone at (305) 514-2419, and/or by e-mail at Julio_Boucle@urscorp.com.

Assistance for people with disabilities including those requiring transcriptions in Braille may be arranged by contacting the Public Information Office seven (7) days prior the meeting in writing (mail or e-mail) or by telephone: Brian Rick, Florida Department of Transportation, Public Information Office, 1000 NW 111 Avenue, Room 6111-A, Miami, FL 33172; brian.rick@dot.state.fl.us; (305) 470-5349.

Sincerely,

Alice N. Bravo, P.E.

ASUNTO: Taller Informativo para el Público

SR 997/ Avenida Krome/ Avenida 177 del Suroeste Desde: Calle 296 del Suroeste /Avocado Drive Hasta: Calle 136 del Suroeste/Howard Drive Número de Proyecto Financiero: 249614-4-22-01 Número de Proyecto de Asistencia Federal: N/A

Condado Miami-Dade, Florida

Estimado Propietario / Parte Interesada:

Por medio de la presente le informamos que la oficina de Planeamiento y Ambientalismo del Departamento de Transporte de la Florida (FDOT) del Distrito Seis, llevará a cabo un taller informativo de proyecto para el público referente al estudio de la ruta estatal No. 997 / Avenida Krome / Avenida 177 del Suroeste. El Departamento de Transporte toma esta oportunidad para invitarle a asistir y participar en el siguiente taller:

Taller Informativo "SR 997/Krome Avenue/SW 177 Avenue South PD&E Study" Lugar: Miami-Dade County John D. Campbell Agricultural Center - Auditorio

Dirección: 18710 SW 288 Street, Homestead, FL 33030

Fecha: Miércoles, Mayo 31, 2006 Hora: 5:30 PM – 8:30 PM

Su participación en este estudio es una oportunidad importante de colaborar en el proceso de toma de decisiones futuras referentes a este corredor. Los límites del proyecto en la SR 997 / Avenida Krome / Avenida 177 del Suroeste son desde la Calle 296 del Suroeste / Avocado Drive hasta la Calle 136 del Suroeste / Howard Drive, en el Condado Miami-Dade.

En el Taller Informativo de Proyecto se discutirá brevemente el estudio y se explicarán los objetivos del proyecto. El taller estará abierto al público y los participantes podrán asistir en cualquier momento entre las 5:30 PM y las 8:30 PM. Se dará una breve presentación del origen y objetivos del proyecto a las 6:30 PM y se exhibirán mapas aéreos del corredor.

Aquellos interesados en obtener información sobre el proyecto pueden contactar a Vilma Croft, P.E., Gerente de Proyecto del FDOT, al teléfono (305) 470-5240, y/o al correo electrónico vilma.croft@dot.state.fl.us ó a Julio Boucle, P.E., Gerente Consultor de Proyecto, al teléfono (305) 514-2419, y/o al correo electrónico Julio Boucle@urscorp.com.

Asistencia para personas con discapacidades, incluyendo aquellas que necesiten transcripciones en Braille, comunicarse por escrito (por correo o correo electrónico) o por teléfono a la oficina de información publica siete (7) días antes de la reunión con: Brian Rick, Departamento de Transporte de la Florida, Oficina de Información Pública, 1000 NW 111 Avenue, oficina 6111 A, Miami, FL 33172; brian.rick@dot.state.fl.us; (305) 470-5349.

ahir Bran

Atentamente.

Alice N. Bravo

Gerente Distrital de Planeación y Ambientalismo

KROME AVENUE SOUTH PD&E STUDY

NEWSLETTER No.1

SR 997 / Krome Avenue / SW 177th Avenue From SW 296th Street / Avocado Drive to SW 136th Street / Howard Drive FM No.: 249614-4-22-01 May 17th, 2006

What is a Project Development and Environment (PD&E) Study?

What issues are evaluated in a PD&E study?

The Florida Department of Transportation (FDOT) works closely with the local governments and the Metropolitan Planning Organization (MPO) as they develop their Long Range Transportation Plan (LRTP). The LRTP determines the transportation improvements required over the next 20 years. The MPOs also develop a Transportation Improvement Program (TIP) which identifies and prioritizes transportation projects to be implemented within a 5-year period based on the LRTP.

Once the priorities are identified in the TIP, they are programmed in the FDOT's 5-year Work Program. Once a project is programmed, the PD&E Study phase can begin.

The PD&E Study phase for planned transportation projects provides the interface between the planning and Design phases to evaluate and document solutions to transportation needs that are compatible with the environment. Simply stated, the PD&E study determines if there is an engineering and environmentally feasible alternative to meet the need determined in the Planning phase.

This process is mandated by the National Environment Policy Act (NEPA) and State law. It represents a combined effort by technical professionals who analyze information and document the best alternative for a community's transportation needs.

- •Social and Economical Impacts.
- •Air Quality assessing existing/future conditions and determining if the project conforms with the Clean Air Act.
- •Noise quantifying the project's noise levels and if they meet criteria, investigate reasonable and feasible noise abatement.
- •Wetlands finding the best way to avoid, minimize and mitigate long-term and short-term impacts.
- •Water Quality measures to prevent, reduce and/or eliminate pollution of ground and surface water.
- •Wildlife/Habitat Impacts efforts are made to identify the presence of and to protect/ensure the continued existence of threatened and/or endangered species and their habitat.
- •Contamination identifying and evaluating potential contamination problems within and/or adjacent to a project.
- •Floodplains efforts are evaluated to avoid, minimize, and mitigate encroachment within the floodplain.
- •Cultural Resources significance of the sites and avoidance methods are evaluated when recreation lands or historic/archeological sites are impacted by the project.
- •Conceptual Design- engineering design concepts are developed and evaluated for environmental compatibility and satisfaction of the transportation need.
- •Public involvement a Public Involvement Program is carried out for every PD&E study, to inform/involve all interested parties in the development of the planned transportation project.

What actions are taken to Complete a PD&E study?

- An environmental document is generated that discusses the impact of the proposed project on the human and natural environment.
- •An engineering document is generated which explains the engineering criteria for the proposed work.
- •Public Meetings are held to share this information with the affected public.
- •A Public Workshop is held to solicit public comments on the proposed project.
- •The Environmental Document is approved by State and/or Federal Agencies.
- •The issues covered by the PD&E study process are addressed so that FDOT can plan a transportation project that will assist in meeting Florida's total transportation needs by building the Florida Intrastate Highway System (FIHS).

KROME AVENUE SOUTH (From SW 296th Street to SW 136th Street)

Project Justification

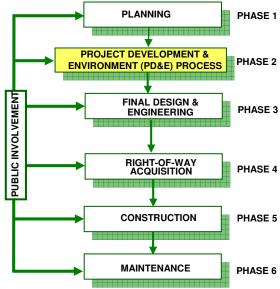

The Florida Department of Transportation (FDOT) has initiated this Project Development and Environment Study (PD&E) in order to determine and document the feasibility of improving the Krome Avenue corridor. Krome Avenue is the only north-south artery on the western fringes of Miami-Dade County. The study will look at improving safety and mobility along this highly traveled corridor, while being sensitive to the needs and concerns of the surrounding communities and preserving the agricultural and rural character of the area. This corridor is also critical in terms of hurricane evacuation and as a post-disaster recovery route. The PD&E study is an integrated effort involving engineering analysis and environmental evaluation, all accomplished within the context of a proactive and continuous public participation program.

Project Characteristics

The project extends from SW 296th Street to SW 136th Street for a distance of approximately 10 miles. The approach to this project will be to thoroughly assess the safety, mobility and community needs of the corridor, develop alternatives to address those needs, and evaluate them according to regulatory agency requirements, and community values. As part of this study and of the alternative selection process, a comprehensive public involvement program is being conducted. It consists of numerous informal and formal meetings with the general public as well as with governmental agencies, elected officials and other interested parties. To ensure that the interests of the community are properly represented, a Citizens Advisory Committee has been established.

Project Status

This study is in the PD&E phase. During this phase, the preliminary engineering well as the preparation of all environmental necessary documentation required for federal approval and subsequent funding completed. An approximate 4-year timeframe is projected for this effort. This study is scheduled to be completed on December, 2007.

DO THE RIGHT THING

Students recognized for good deeds

• RIGHT THING, FROM 18

been a Girl Scout for seven years and was a cheerleader for three years. Jasmine is also involved in the Art Club and is a peer mediator where she assists with conflict-resolution strategies.

• JUSTIN HERRERA, fourth grade, Colonial **Drive Elementary:** During last year's hurricane season, Justin patrolled his neighborhood collecting branches and shingles to help clean up the community. He assisted an elderly woman with debris cleanup because she had no one else to help her. Justin decided to make an ongoing effort to check on her, and

one day found her having breathing problems. Justin had his parents drive her to the hospital while he comforted her. He then took care of her dogs while she was hospitalized.

COURTNEY HOL-LAND, 12th grade, Miami Central Senior High: Courtney is an active member of the student body and has been vice president of the Rocket AIDS Awareness Program, a liaison of Future Business Leaders of America, treasurer of the Student Government Association and a member of the National Honor Society, Mu Alpha Theta and Urban League of Greater Miami. She has also been training as a

dancer since age 2, studying ballet, tap, jazz, modern, pointe and lyrical dance. Her discipline paid off in 2004, when she was invited to perform with the Dance Theater of Harlem. Ranked 16 out of 568 students, Courtney plans to attend Howard University in the fall.

• RAIDELYN LAN-DRON, eighth grade, M.A. Milam K-8 Center: Although Raidelyn has faced many obstacles in her life, she has turned them around and started her own peer counseling group. She also participated in her school's spring drama and dance performance, and she successfully competed at the youth fair.

Raidelyn usually stays after school to help teachers and office personnel, while on the home front she helps with chores and attends a youth group at her church.

 VALERIA LICONA, sixth grade, Lawton Chiles Middle: She has maintained all A's and B's throughout her years in school. With only minimal accommodations because of health problems, Valeria goes through any given school day just like the other students. She always offers a hand and words of encouragement to others.

 RUBEN SOTOLONGO, eighth grade, M.A. Milam K-8 Center: Ruben has excelled academically since arriving in the United States from Cuba four years ago. He has maintained a 3.3 GPA and has been on the Honor and Conduct Honor rolls. He was recently accepted to Miami Lakes Technical High School and his goal is to study engineering at the Massachusetts Institute of Technology in Boston.

The Do The Right Thing Program will not be accepting nominations over the summer. The program will resume at the start of the 2006-07 school year. For more information, log on to www.dotherightthinginc.org or call 305-579-3344.

Public Informational Workshop SR 997/Krome Avenue/SW 177th Avenue **Project Development & Environment Study**

Project Limits: from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade County, Florida

The Florida Department of Transportation (FDOT), District VI, has scheduled a Public Informational Workshop for the SR 997/Krome Avenue/SW 177th Avenue Project Development and Environment (PD&E) Study from SW 296th Street/Avocado Drive to SW 136th Street/Howard Drive, in Miami-Dade

The Public Informational Workshop is being held to briefly introduce the project study and to obtain public input. The workshop will be conducted as an open house and participants are welcome to come at any time between 5:30 p.m. and 8:30 p.m. At the workshop, a brief presentation on project background and purpose will be given at 6:30 PM and aerial maps will be on display. FDOT and consultant representatives will be present during the specified hours to informally discuss the project, receive public input, and answer questions. This is a public informational workshop, not a public hearing. We invite and encourage all interested persons to attend the workshop to review and discuss this important transportation improvement project.

The Public Informational Workshop will be held on Wednesday, May 31, 2006, at the Miami-Dade County John D. Campbell Agricultural Center - Auditorium, located at 18710 SW 288th Street, Homestead, Florida 33030. Public participation is solicited without regard to race, color, religion, sex, age, national origin, disability, or familial status. Anyone needing project information or requesting special accommodations under the Americans with Disabilities Act of 1990, should contact Ms. Vilma Croft, P.E., FDOT Project Manager, at (305) 470-5240, or by e-mail vilma.croft@dot.state.fl.us or Mr. Brian Rick, FDOT Public Information Office, by telephone (305) 470-5349, or by e-mail brian.rick@dot.state.fl.us, at least seven (7) days prior to the workshop.

Taller Informativo para el Público SR 997 / Avenida Krome / Avenida 177 del Suroeste Estudio de Desarrollo de Proyecto y Medio Ambiente (PD&E)

Límites del Proyecto: desde la Calle 296 del Suroeste / Avocado Drive hasta la Calle 136 del Suroeste / Howard Drive, en el Condado Miami-Dade, Florida.

El Departamento de Transporte de la Florida (FDOT), Distrito VI, ha programado un Taller Informativo para el Público como parte del Estudio de Desarrollo de Proyecto y Medio Ambiente en el SR 997 / Avenida Krome / Avenida 177 del Suroeste, desde la Calle 296 del Suroeste / Avocado Drive hasta la Calle 136 del Suroeste / Howard Drive en el Condado Miami-Dade, Florida.

El taller se está llevando a cabo para presentar el proyecto y obtener el aporte del público. El taller estará abierto al público en general y los participantes podrán asistir en cualquier momento entre las 5:30 PM y las 8:30 PM. En el taller se dará una breve presentación del origen y objetivos del proyecto a las 6:30 PM y se exhibirá un mapa con la foto aérea del corredor.

Representantes del Departamento de Transporte de la Florida (FDOT) y consultores estarán presentes durante las horas especificadas para discutir el proyecto, recibir comentarios del público y responder preguntas. Este será un taller de trabajo para el público, no una audiencia pública. Invitamos y animamos a todas las personas interesadas a que asistan al taller para revisar y discutir este importante proyecto de transporte.

El taller de inicio tendrá lugar el día miércoles, 31 de mayo del 2006 en el "Miami-Dade County John D. Campbell Agricultural Center", localizado en el 18710 SW 288 Calle, Homestead, Florida 33030. Se solicita la participación del público sin importar raza, color, religión, sexo, edad, nacionalidad, incapacidad, o estatus familiar. Aquellos que requieran información sobre el proyecto o que necesiten acomodación especial bajo la ley de Americanos con Impedimentos (ADA) del 1990, pueden contactar a Vilma Croft, P.E., Gerente de Proyecto del FDOT, al teléfono (305) 470-5240, y/o correo electrónico vilma.croft@dot.state.fl.us ó a Brian Rick, Oficina de Información Pública del Departamento de Transporte de la Florida (FDOT), al teléfono (305)470-5349, y/o al correo electrónico brian.rick@dot.state.fl.us al menos siete (7) días antes de la fecha del taller.

- Florida Intrastate Highway System (FIHS)
- Strategic Intermodal System (SIS)
- Krome Avenue is the <u>only</u> north-south artery on the western fringes of Miami-Dade County
- Important route for hurricane evacuation and post-disaster recovery
- Transitions with projects at both ends of the corridor
- Corridor consistently fails crash Safety Ratios

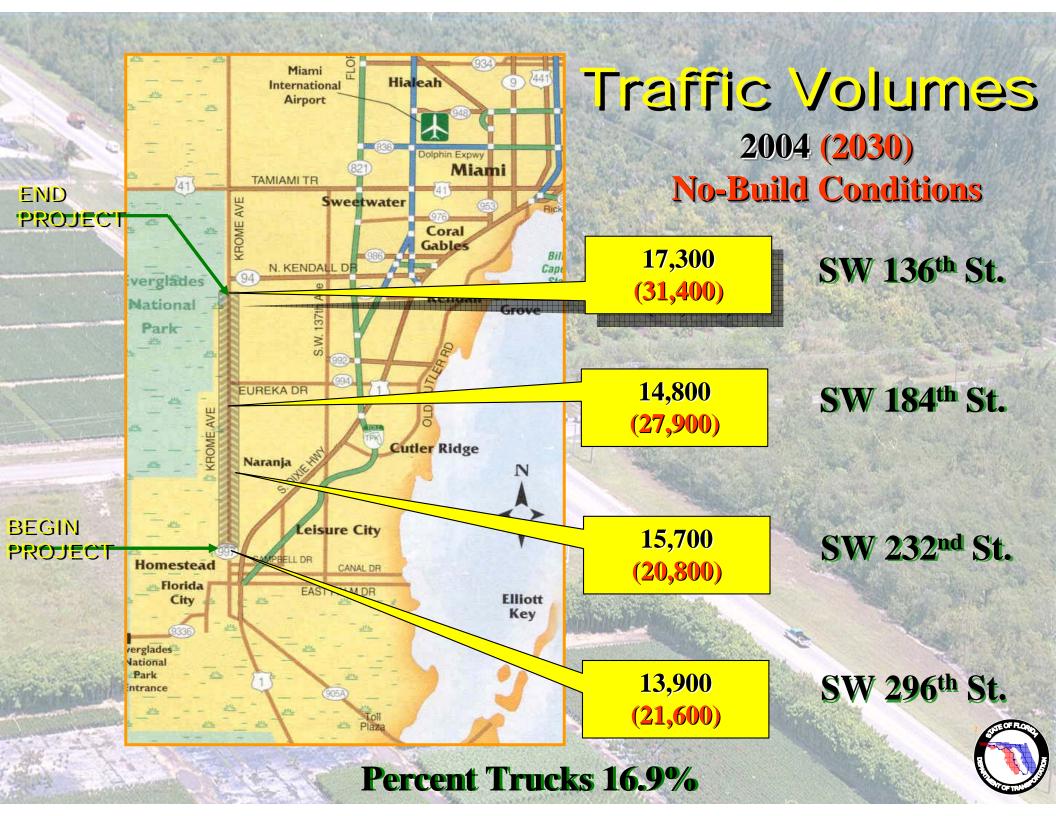

Meed for Improvement

Physically and Functionally Deficient Areas

- Roadway Safety
- Traffic Mobility
- Roadway Capacity
- Traffic Congestion & Delays
- Travel Time Delays
- Intersection Geometry & Operations
- Access Management
- Water Quality & Drainage Issues
- Bicycle/Pedestrian Facilities
- Economic Transport of Goods & Services
- Regional Connectivity

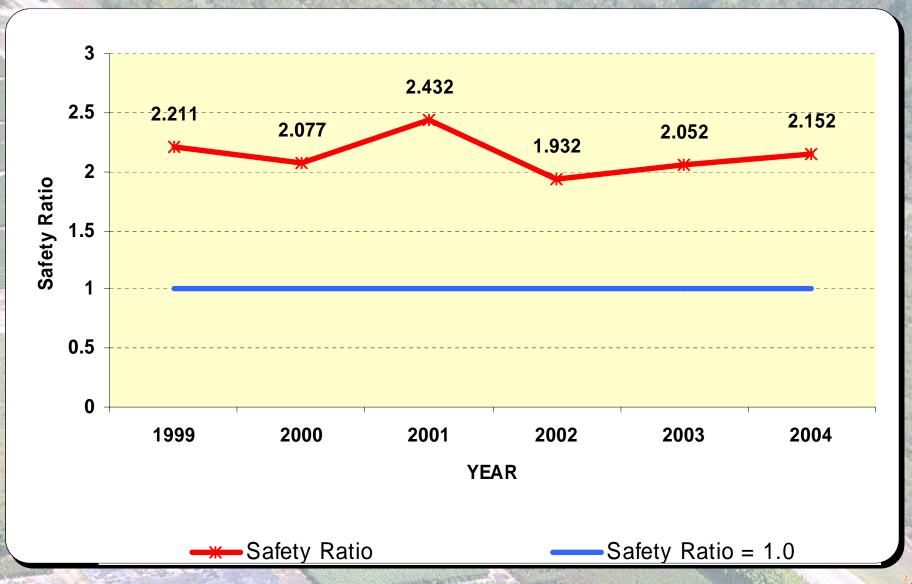

Crash Data Summary from 1999 to 2004

	Year	Number of Crashes	Number of Injury Crashes	Number of Injuries	Number of Fatal Crashes	Number of Fatalities
1	1999	97	63	120	2	2
2	2000	94	64	120	3	3
2	2001	116	74	157	3	4
2	2002	91	60	106	2	2
2	2003	106	61	134	2	3
2	2004	121	68	125	0	0

Safety Ratios

Crash Rates

(Crashes/MVM)

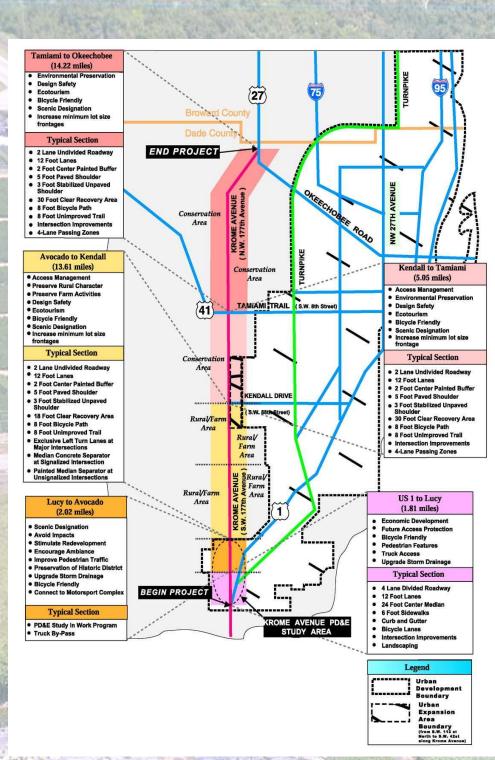

Project Consistency

The proposed project has been found consistent with:

- ✓ Department of Community Affairs (DCA) approved Miami-Dade Comprehensive Development Plan
- **✓ FDOT Work Program**
- **✓ MPO Comprehensive Long Range Transportation Plan** (LRTP)
- ✓ 2004 Miami-Dade MPO Transportation Improvement Plan (TIP)
- **✓ MPO-approved Congestion Management System**

Project History Krome Avenue

- R/W Protection
- Rural Character Preservation

Action Plan

- Environmental Preservation
- Access Management
- Intersection Improvements

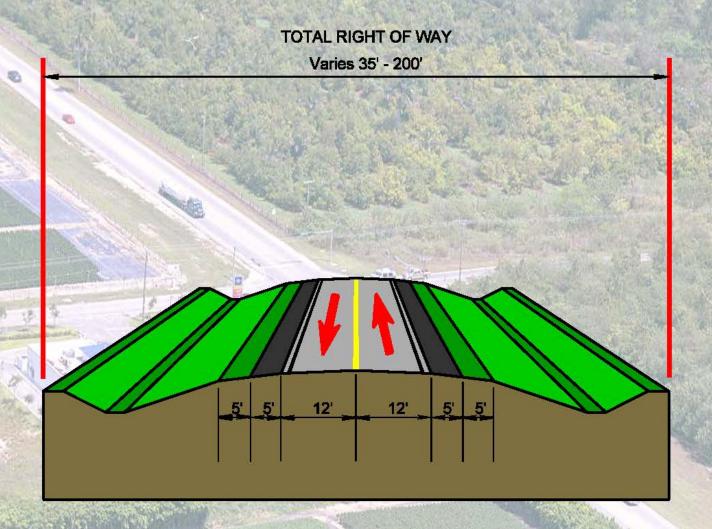

Corridor split into 5 segments

- Short-term improvements
- Long-term improvements

MPO approved 1999

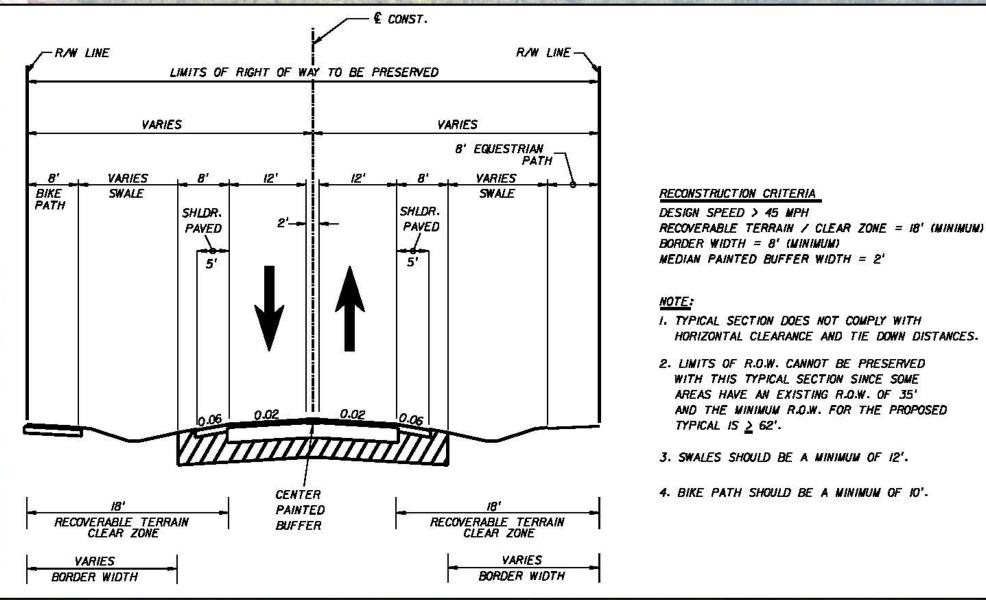

Existing Typical Section

2-Lane Undivided Roadway - Typical Section

Action Plan Typical Section

Short-Term Improvements / Current Projects

Scope includes:

Safety Enhancements, Intersection & Signal Modification, Limited Access Management, Shoulder Widening, Pavement Markings, Resurfacing, Drainage Improvements.

Resurfacing- 296th Street To 288th Street **Letting April 2006**

Intersections – 288th, 216th, 200th, & 184th Streets

Letting April 2006

Intersections - SW 272nd, 256th, 192nd, 168th & 136th Streets

Construction Complete 2005 (Design-Build)

Four Alternative Typical Sections Best Fit Alignments

- Two-Lane Rural
- Three-Lane Rural
 - Passing Zones
- Four-Lane Rural
 - •Florida Intrastate Highway System
- •Four-Lane Rural
 - Plans Preparation Manual

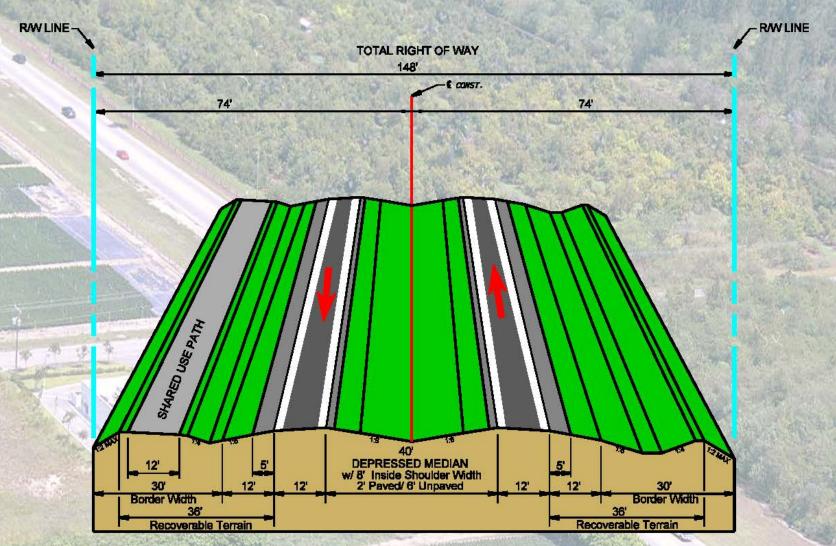

Evaluation Criteria

- Engineering
- Environmental
 - Natural
 - Physical
 - Socio-cultural
- Community Input
- Cost

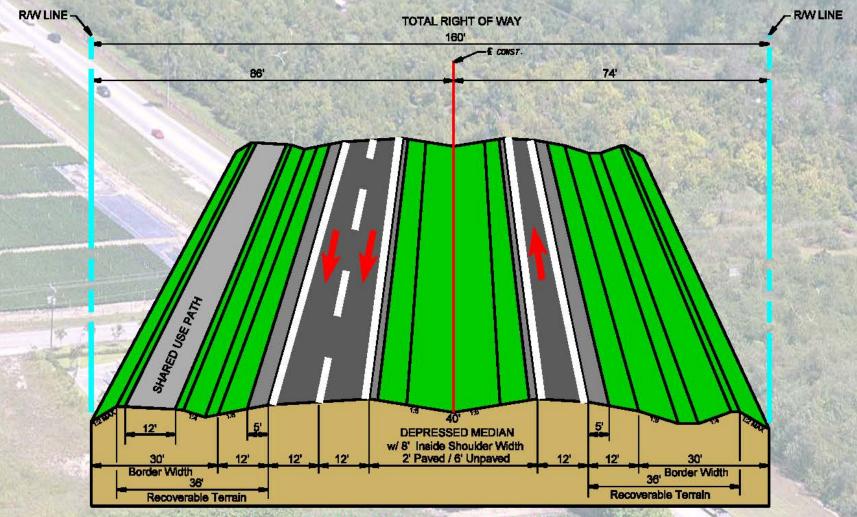

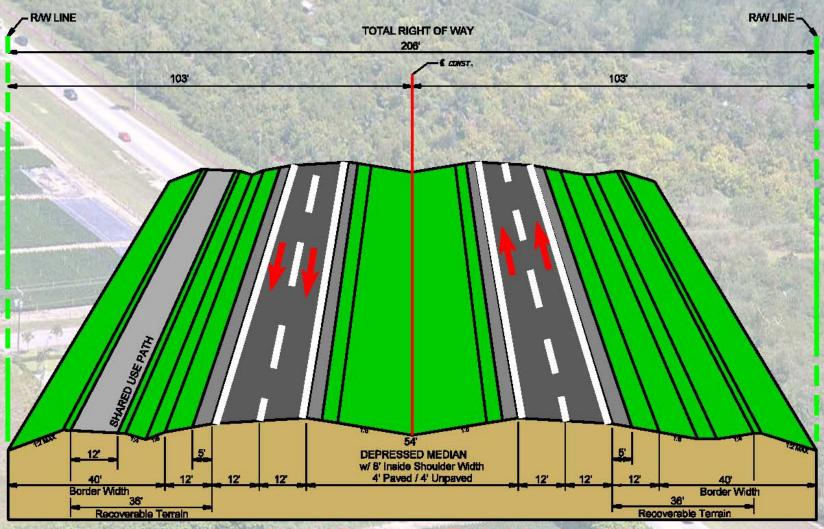

2- Lane Divided Roadway - Typical Section

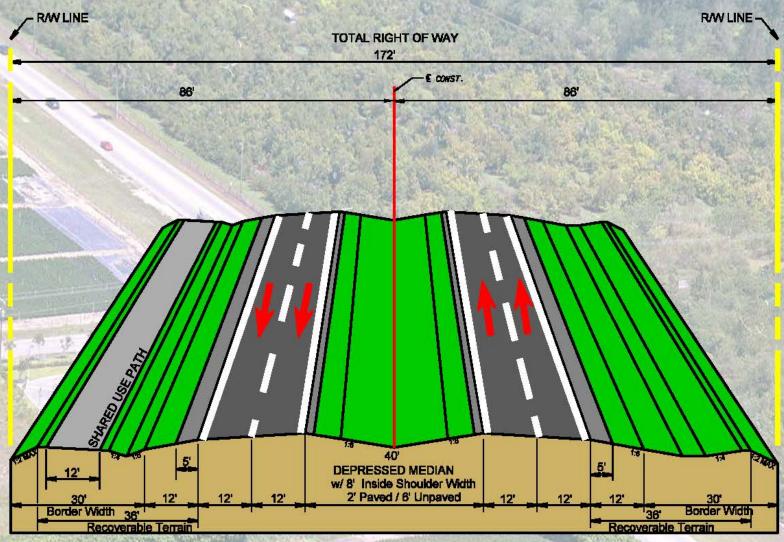

3- Lane Divided Roadway - Typical Section (Same As Alternative 1 With Passing Zones)

4- Lane Divided Roadway - Typical Section (SIS)

4- Lane Divided Roadway - Typical Section (PPM)

THE UNITED PROPERTY OWNERS OF THE 8.5 SQUARE MILE AREA, INC.

WHEREAS, for the past twenty years we have referred to Krome Avenue as "Killer Krome",

WHEREAS, hundreds of lives have been lost by accidents caused due to unsafe road conditions on Krome Avenue,

WHEREAS, thousands of residents, visitors and workers that ingress and egress the 8.5 Square Mile Area are impacted daily by the unsafe traffic conditions on Krome Avenue,

The undersigned persons, being Directors of The United Property Owners of the 8.5 Square Mile Area Inc., (herein called the "Association"), hereby take the following actions by written consent in a special meeting held in accordance with Florida Statutes:

RESOLVED:

That the Association supports the expansion to four lanes for Krome Avenue, as well as all the essential improvements to make this a hazard-free, safe road; to include - but not limited to - incorporating shoulders and additional extensions, as needed.

Signed this 15th day of May, 2006.

OGarco- A. OGartues

GOOD EVENING,

MY NAME IS ALICE PENA. I AM PRESIDENT OF THE UNITED PROPERTY OWNERS OF THE 8.5 SMA AND MEMBER OF THE KROME AVENUE CITIZEN'S ADVISORY COMMITTEE.

AS A RESIDENT, I AM DISMAYED AND FRUSTRATED BY THE NUMBER OF ACCIDENTS AND DEATHS THAT OCCUR ON THIS KILLER ROAD KNOWN AS KROME AVENUE. DURING FIRST FEW MONTHS OF THIS YEAR HAVE ALREADY BEEN THERE THREE FATAL ACCIDENTS AND NO MENTION OF IT IN THE MEDIA. THERE HAVE BEEN HUNDREDS OF DEATHS OVER THE THIS WILL ONLY CONTINUE YEARS AND INCREASE AS WE RETAIN APPROXIMATELY ONE THOUSAND NEW RESIDENTS A DAY IN SOUTH FLORIDA. TODAY, OVER 18,000 VEHICLES TRAVEL DAILY ALONG KROME AVENUE BETWEEN SW 296TH STREET AND SW 136TH STREET. AT SW 136TH STREET -OVER 59,000 VEHICLES ENTER/EXIT THE CORRIDOR. AT SW 296TH STREET - OVER 37,000 VEHICLES ENTER/EXIT THE CORRIDOR. THESE FIGURES EXCEED

ALL EXPECTATIONS FROM ANALYSIS PROJECTIONS MADE JUST A FEW YEARS AGO. SO I CAN TELL YOU THAT IN ALL PROBABILITY, THE FIGURES FOR THE FUTURE WILL EXCEED ALL CURRENT PROJECTIONS. THAT IS WHY WE HEAR THAT A 4-LANE KROME WILL HAVE A WORSE LEVEL OF SERVICE THAN THE CURRENT LEVEL OF SERVICE ON A 2-LANE ROAD. THIS MEANS THAT THE INABILITY TO PROVIDE APPROPRIATE SERVICE ON A 2-LANE ROAD FOR TENS OF THOUSANDS OF PEOPLE TODAY WILL BE JUST AS INEFFECTIVE FOR HUNDREDS OF THOUSANDS OF PEOPLE IN THE FUTURE ON A 4-LANE ROAD. THE ONLY CONCLUSION, THEREFORE, FOR AN APPROPRIATE LEVEL OF SERVICE FOR THOSE HUNDREDS OF THOUSANDS OF PEOPLE IN THE FUTURE WILL BE A 6-LANE ROAD. SOME FOLKS WILL COME BEFORE YOU TRYING TO SKEW THIS ANALYSIS BY SAYING THAT IF 4-LANES WILL BE JUST AS BAD AS 2-LANES THAN JUST KEEP 2-LANES. HOW FALLACIOUS IS THAT? IF WE CAN'T SERVICE TENS OF THOUSANDS OF PEOPLE ON 2-LANES HOW ARE WE GOING TO SERVICE HUNDREDS OF THOUSANDS OF PEOPLE ON 2-LANES? THAT WOULD BE UNTHINKABLE CHAOS AND TOTAL IRRESPONSIBILITY. WE NEED TO PLAN FOR THE FUTURE. AMERICA HAS LOST MANY OF IT'S HARD CORE VALUES. HAS IT ALSO LOST RESPECT FOR HUMAN LIVES? THIS IS ABOUT SAFETY AND SAVING LIVES. AMERICA WAS NOT BUILT ON A NO-GROWTH, DO-NOTHING, REGRESSIVE MENTALITY! OUR FIRST RESPONSIBILITY SHOULD BE TOWARDS KEEPING OUR ROADS SAFE – LET NO ONE HINDER OR IMPEDE THIS TASK!

IN ATTEMPTING TO PROVIDE SAFETY FOR OUR RESIDENTS, OUR COMMUNITY ASSOCIATION, REPRESENTING SOME 1,500 FAMILIES HAS ADOPTED THE FOLLOWING RESOLUTION:

(ATTACHED)

KROME AVENUE - TRANSPORTATION DEPT.
WORKSHOP HELD AT THE AG CENTER ON 5/31/06

Estimo que la ampliación de la Ave. Krome
es symamente necesario y de suma Emergencia
porque ha habido muchos accidentes Fatales y en un
Futuro inmediato con el aumento del trafico habran
muchos más.

(Por favor usar el reverso de esta tarjeta para comentarios adicionales)

Memorandum

TO:

Mike Ciscar

via Facsimile 305-594-0755

FROM:

Craig Wheeling

CW/ear

DATE:

June 5, 2006

SUBJECT:

Krome Avenue

My name is Craig Wheeling. I am CEO of Brooks Tropicals, the largest grower/shipper of tropical fruit in the US. We are marketing agents for approximately 200 South Dade growers.

We operate year round with our peak shipping week in August. During this peak, we expect to receive 97 truckloads of fruit from the Redlands and 50 truckloads from other groves. During that week, we expect to ship, mostly to other states, between 150 to 200 truckloads of fruit, for a total week's shipping load of 350 truckloads, almost all of which will travel on Krome Avenue. This is our peak, but remember, we operate 52 weeks of the year.

Unfortunately, we are just one of hundreds of commercial shippers using Krome Avenue.

The road is over utilized and unsafe as a two-way highway. It needs to be four laned. Of additional concern, our truck traffic has to merge with increasing commuter traffic in the mornings and evenings.

Unfortunately, our company has had several, tragic, fatal accidents involving employees on Krome Avenue. I have also seen first hand the chaos of traveling on Krome including being passed on the right by an SUV that was driving on the right-of-way.

Thank you for the opportunity to express my comments on Krome Avenue.

Increased development that will result from this 4 laving will destroy agriculture in S. Dade, Increased population will overcome all advantage gained by road improvement and result in similar on greater Congestion as noted in a study in the Economist magizing, such improvement is traffic flow last at best 5 yrs or a little

The public maps of the proposed road right of ways are Filled with inaccuracies newding of the quality of research and analysis in this study very questionable.

How can the public be suns that a truly protessional, Scholarly 6thdy was made?

Have the other communities North of their area been intowned, fully and accurately of the impact of the I were eased trattic on trome on their veighborhood?

Who iritiated this proposal?

Why?

Why wol have a plebisite.

June 1, 2006

Julio Boucle' P.E. Consultant Project Manager URS Corporation 7650 Corporate Center Drive, Suite 400 Miami, Florida 33126

Dear Mr. Boucle',

I attended your meeting at the Agricultural Center on May 31, 2006. I was astounded at the idiotic, moronic, asinine plans that you have drawn up. To deliberately curve the road to wipe out the businesses so that you could protect a couple of houses is unbelievable.

My shopping center on the corner of SW 248 Street will be destroyed in its entirety because the parking will have to be removed in the front, even with your least plan. My BP gas station will be condemned in its entirety. The Citgo service station across the street will also be useless. The amazing, crowning blow is that you severely curve the road to wipe out the new Shell station on the corner of 272nd Street & Krome Ave. This station is not even completed and it is about a 3 million dollar project. Apparently this was done to save the small stone house, which is on the edge of the road across the street. The taxpayers of the State of Florida will have to bear the expense of all these outrageous conditions. I hope the people of South Dade will band together and file an injunction to stop your ridiculous proposals. The entire Planning and Engineering Department that did this, should be fired on the spot.

I feel there is something behind this, either a move to pacify the "treehuggers" who don't want any business on Krome Avenue or to please the Homestead merchants who would be happy to see all the Krome Avenue businesses destroyed.

Very truly yours,

Thomas A. Vellanti

June 22, 2006

Julio Bouclé, P.E. Consultant Project Manager URS Corporation 7650 Corporate Center Dr. Suite 400 Miami, Florida 33126

Dear Mr. Bouclé,

I am the Plaza Manager of Coconut Krome Plaza on the corner of Krome Ave and SW 248 St. Homestead. I am apauld at the proposed plans for the widening of Krome Ave.. How could such an absurd idea come about by "a group of supposedly intelligent people"?

The idea of taking property away from established businesses to widen a street that is used as a race track is not only asinine but it is criminal. People will loose their entire livelihood. Most of the owners, TAX PAYERS, have worked years to establish their businesses. They probably have big debts to pay and are very diligent in maintaining their establishments. Now a new proposal is made to widen a street that should have been broadened upon construction. This will erase their dreams, their freedom to have something they built and have operated for years. THEIR AMERICAN DREAMS WILL NOW BE LOST.

I would think a BY-PASS should have been thought of west of Krome Ave., beyond the populated areas, would certainly afford a wider route and eliminate the destroying of so many DREAMS. Another idea is to perhaps look into banning all trucks and large vehicles from using Krome Ave and reroute them to use the highway system without any ridiculously high tolls.

I am writing this letter on behalf of the ten (10) tenants that occupy this plaza, the owner, Gloria Lopez, who as most of all the property owners have very large mortgages to pay, and every other concerned citizen that this horrible idea will affect and destroy.

THERE MUST BE ANOTHER WAY

Please pass this letter on to the other constituents of your committee. I am sure my letter is not the first one you have received nor will it be the last.

Sincerely,

Lorraine DeMayo

Plaza manager

Subject South Krome 4 Laning

History:

This message has been forwarded.

Dear Sir & Madam,

As a resident of the Redland, I would like to document my strong opposition to any widening of South Krome Ave. There are many reasons to not widen Krome, but the following are some of the most important:

- The higher speeds will absolutely cause a higher number of deaths.
 - 2. More lanes will create more traffic.
- 3. It will adversely impact the character of the area and not improve conditions for the local farmers.
- 4. If given the opportunity to vote in a referendum, the immediate population would soundly defeat any proposal to widen it.

Please feel free to contact me at your convenience for any questions or comments.

Best regards, Ken Holden A Concerned Redland Resident

History

This message has been forwarded.

To the Project Managers and the Public Involvement Manager,

I am writing as board member of the Urban Environment League of Greater Miami, in support of the Krome South Citizens Advisory Committee. Krome Avenue's southern extent should not be widened, for the following reasons:

- * Widening will greatly increase traffic capacity, which will pull traffic from inside the Urban Development Boundary to this route outside the UDB.
- * Widening of the same sort already applied to Alligator Alley greatly worsened traffic accidents and deaths on that roadway.
- * Using a design speed well in excess of the posted speed limit (65 MPH versus 45 MPH) creates roadway details which will destroy the pleasant rural character of the roadway and damage the small-scale commercial activities that are part of life today along Krome Avenue.
- * Wider roadways are the single largest promoters of sprawl, and they work to undermine master planning controls such as the Urban Development Boundary.

The neighbors have spoken very articulately through the Krome South Citizens Advisory Committee. Please respect the informed and balanced conclusions reached by folks who live in the Krome South neighborhoods. There is no need to widen Krome Avenue.

Thank you,

Albert Harum-Alvarez Small Company http://smallco.net http://smallco.net/classes
